Jeff Bledsoe

Operations Director | Technology & Process Improvement Leader | MBA Candidate

Westfield, IN • jefbleds@gmail.com • linkedin.com/in/jeff-bledsoe-mba • jefbledsoe.github.io

EXECUTIVE SUMMARY

Operations and technology leader with 10+ years of scaling logistics operations and building the software behind them. As Co-Founder and CTO of Priscotty, cut average delivery time nearly in half; as a UPS Hub Operations Manager, led 400+ employees processing 39 million parcels a year. Leads cross-functional teams and combines P&L ownership, KPI-driven management, data analytics and hands-on technical skill to modernize legacy processes, with public leadership experience as the 2026 nominee for Westfield Washington Township Trustee.

CORE COMPETENCIES

Operations Management • Technology Leadership • Budgeting & P&L Management • Process Improvement & Automation • KPI Development • Data Analytics • Strategic Planning • Project Management • Cross-Functional Leadership • Workforce Planning • Labor Relations • Change Management • Supply Chain Strategy • Stakeholder Engagement • Public-Sector Operations • Public Speaking

EXPERIENCE

Westfield Washington Township, **Candidate for Township Trustee** Jan 2026 – Nov 2026

- Won the May 2026 primary election and advanced as the nominee to the November 2026 general election.
- Ran on transparency, proactive cost control and community assistance: evening board meetings, more frequent public financial reporting, and visibility into Build-Operate-Transfer financing for capital projects.
- Produced data-driven concept redesigns of the township website, adding monthly financial recaps, assistance metrics (approval rate, days to funding) and a Fire & EMS page.
- Led digital outreach across the campaign website, Facebook and TikTok, and launched a resident survey on community priorities.

Priscotty, **Co-Founder and CTO** Feb 2024 – Nov 2025

- Architected an automated dispatching system that cut average order delivery time from over 60 minutes to 31 minutes.
- Integrated the point-of-sale system to automate inventory tracking and billing.
- Designed and deployed a business intelligence dashboard whose customer insights grew weekly delivery orders by 40%.

Veryable, **Director of Business Development** May 2022 – Feb 2023

- Doubled year-over-year market revenue through targeted KPI improvements.
- Identified and brought on businesses to adopt a new operating model, improving their operating frameworks.
- Set team priorities and tracked performance against targets to drive accountability in a fast-moving startup.

UPS, **Hub Operations Manager** Nov 2020 – Apr 2022

- Managed processing of over 39 million parcels a year across two hubs, overseeing 400+ full-time and part-time employees and supervisors.
- Reduced peak-season production errors from 3% to 1% through training, production planning and accountability measures.
- Improved labor relations and service delivery rates through process optimization.

Hub Operations Supervisor Jan 2017 – Nov 2020

- Led 11 front-line leaders and 60 employees across manual and automated processing and sortation systems.
- Served as the hub's Subject Matter Expert for new operations technology and trained newly promoted full-time supervisors.
- Raised productivity 10% by optimizing destination distributions and job processes; cut service failures 30% with new onboarding and quality controls.
- Led the turnaround of a semi-automated sortation system, reducing its service failure rate threefold.

Industrial Engineering Supervisor (part-time) Jan 2016 – Jan 2017

- Founded an operation expansion that increased irregular-package processing capacity in Indianapolis by 70%.
- Led load capacity optimization for average savings of $1,800 a day; led cross-functional analysis of load distributions and routing.

Lead Hub Operations Supervisor (part-time) · Loader Feb 2013 – Jan 2016

- Trained and onboarded newly promoted part-time supervisors; raised team productivity 30%.
- Implemented service controls that reduced work-area service failures to one-fifth of the maximum allowable rate.

Indiana National Guard, **Soldier** Nov 2010 – Nov 2018

- Served in logistics and combat arms roles; held a security clearance.

EDUCATION

Indiana University, Kelley School of Business, **Master of Business Administration (MBA)** Expected Nov 2027

Massachusetts Institute of Technology (MIT xPro), **Certificate, Full Stack Web Development** 2023

- MERN stack (MongoDB, Express, React, Node); DevOps, Agile, virtual machines, REST APIs and testing. Additional coursework in machine learning and data science with Python.

Indiana University East, **Bachelor of Science, Business Administration** 2022

- Coursework in economics, accounting and organizational behavior. Prior engineering and advanced mathematics coursework at Indiana University Indianapolis.
